Saverino & Associates
612-581-8858

Dave Bloomquist
D & R Star
507-282-6080

- **Saving Money:** MAMC monitors city food vending machine license fees to ensure that a city charges no more than \$25 per machine. The City of Minneapolis proposed raising license fees by \$10 a machine in 2011 and MAMC opposed the increase saving vendors more than \$9.00 per machine.
- **Defeating New Soft Drink Tax:** MAMC monitors federal legislation that would impact the vending industry and assisted members to oppose and defeat a new federal tax on each can of soft drinks and sweetened beverages.
- **Alerting Members on State Legislation and Staying Informed:** MAMC provides legislative alerts for MAMC members to contact their state representatives on vending issues. MAMC also sends to members regular updates via e-mail on current industry matters.
- **Happening Now:** MAMC is keeping members informed of the new regulation being implemented by the Food and Drug Administration to publicly post the calorie count of food products sold in a vending machine. MAMC is submitting comments to the FDA by September 7, 2010 to make complying with the new calorie disclosure requirement as simple as possible.
- **Become a Member of a Professional Association:** MAMC was formed in 1966 and has been the professional state vending association in Minnesota for the past 45 years. Join a tradition of excellence, join MAMC.

For a MAMC Membership Application:
